

DEPARTMENT OF COMPUTER SCIENCE & DESIGN

Our students are provided with comprehensive placement training and career guidance to enhance their employability and industry readiness. The department prepares students through aptitude training, technical skill development, coding practice, mock interviews, group discussions, and soft skills sessions. As a result, students are well-equipped to secure opportunities in leading multinational companies such as TCS, Infosys, Accenture, Cognizant, Hexaware, Mphasis, and Persistent Systems, enabling them to build successful careers in the IT and technology sectors.
