A report on “Child Health Awareness Session”

Place: Male Mahadeshwara Hill region, Hanur taluk, Chamarajanagar

Date: 12th February 2026

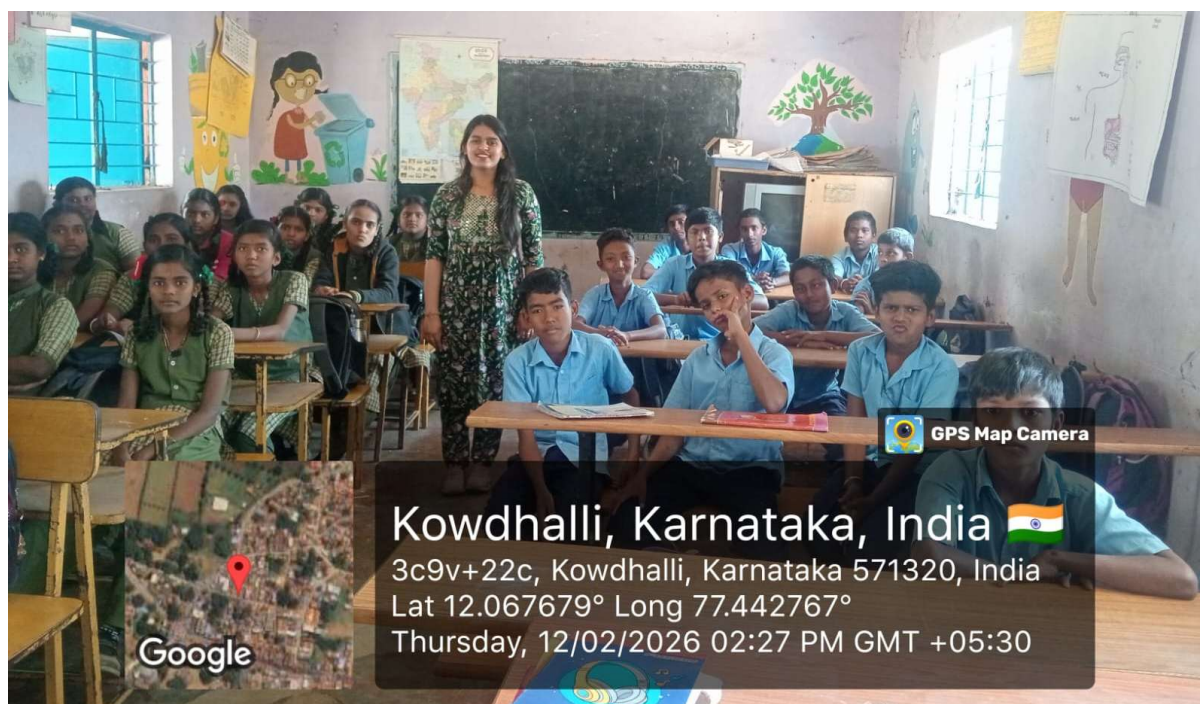

The NSS Unit of ATME College of Engineering actively participated in coordinating the Child Health Awareness Sessions organized by Youth for Seva, Mysuru Chapter for Government School students in and around the Male Mahadeshwara Hill region, Hanur Taluk, Chamarajanagar District on 12th February 2026. The program was aimed at creating awareness among school children regarding personal hygiene, nutrition, sanitation, disease prevention, and healthy lifestyle practices. A total of 25 NSS student volunteers from ATME College of Engineering participated in the event and extended their support in organizing and conducting the sessions successfully.

The volunteers were divided into teams of 2–3 members and were deputed to eight government schools, namely GHPS Cowdalli, GHS Cowdalli, GHS Ellemala, GHPS Kannuru, GHS Mangala, GHPS Kempaiyana Hatti, GGHS Ramapuram, and GHS Maaralli. The student volunteers assisted in coordinating awareness sessions, managing student participation, distributing educational materials, and facilitating interactive activities related to health and

hygiene. Through their dedicated efforts, the volunteers helped ensure effective communication of health-related information to the students and encouraged them to adopt healthy habits in their daily lives.

The program proved to be a meaningful community outreach initiative that benefited school children from rural areas by enhancing their understanding of health and hygiene practices. It also provided ATME NSS volunteers with an opportunity to engage in social service, develop leadership and communication skills, and contribute towards the well-being of the community. The event concluded successfully with positive feedback from the school authorities, students, and organizers, highlighting the valuable contribution of the NSS volunteers in making the program impactful.
